HEROES OF ISLAM • SERIES 30

Piri Reis

"And it is He who placed for you the stars that you may be guided by them through the darknesses of the land and sea. We have detailed the signs for a people who know."

— Surah Al-An'am 6:97

The nephew of Admiral Kemal Reis, who learned the science of the sea aboard ship, drew a world map in 1513, wrote the Kitab-ı Bahriye with more than two hundred maps, and led the Ottoman fleet in the Indian Ocean in old age. This book also tells honestly of the sea raids of his youth, the accusations at Hormuz that led to his execution, and pseudo-scientific claims about his map; every lesson rests on the Qur'an and authentic Hadith.
